

## Power Lock Ultimate Protection - Polymer Sealing Blend -

### Product Description

Menzerna Power Lock Ultimate Protection (PLUP) is the long-lasting polymer coating sealant for all automotive clear coats. PLUP effectively seals the coating surface for long-lasting preservation. Protects against damaging environmental influences while maintaining a brilliant deep gloss and it persuades with a maximum beading effect.

### Recommended Usage

- Clean surface thoroughly prior to polishing.
- Shake the bottle prior to use and apply the following quantity of the product onto the polishing pad.  
Recommendation for a 40cm x 40cm area:  
Pad with a diameter of 95mm: 3-4 pea-sized drops  
Pad with a diameter of 150mm: 5 pea-sized drops  
Pad with a diameter of 180mm: 6-7 pea-sized drops
- Use the Menzerna Wax Foam Pad in the event of heavy signs of use.
- Use an orbital polishing machine and use the cross-coating method.  
Apply light, even pressure while polishing and extend the product with a constant low machine speed.
- At first, the polish will seem a little milky and should be worked in until only a slightly transparent/oily film is visible.
- Leave the sealant to dry for 25 to 30 minutes, then remove any residual polish with the Premium Microfiber Cloth, without applying any pressure.  
Leave the sealant to harden in a protected area for at least 3 hours.
- Optionally, you can reapply PLUP after 4 hours for a longer-lasting sealing effect.
